ABOUT ME

Aspiring Software Developer with foundational experience in full-stack development, data handling, and containerized deployment. Actively building logical thinking through LeetCode and expanding knowledge in backend frameworks and cloud-based development workflows. Focused on transitioning academic learning into scalable real-world solutions.

EDUCATION

2024–2028	B.E. in Computer Science Engineering, PSNA College of Engineering and Technology	CGPA: 9.18/10
2024	HSC Class (XII), Govt. Girls Hr. Sec. School, Natham	Score: 88.5%
2022	SSLC Class (X), Govt. Girls Hr. Sec. School, Natham	Score: 87.8%

TECHNICAL SKILLS

Languages:	Java, Python, C
Web Development:	HTML5, CSS, JavaScript
Databases:	MySQL
Tools:	Linux (basics), Docker (basics), Postman (API Testing), VS Code, Git & GitHub (basics)
Core Fundamentals:	Data Structures & Algorithms (Current focus: problem-solving & logic building)

TECHNICAL PROJECTS

Maths Tuition Platform: Developed a full-stack platform with Node.js and MySQL, enabling real-time admin alerts for student enquiries using Telegram Bot API and improving reliability through backend validation.

Programming Quiz App: Developed and containerized a Python quiz application for consistent cross-platform deployment, and published container images to Docker Hub.

Student Management System: Architected a backend system using FastAPI with RESTful CRUD endpoints to manage student data efficiently.

Interactive Quiz Game: Built a GUI-based desktop application leveraging OOP principles to manage game state, scoring logic, and user interaction.

E-Commerce Storefront: Deployed a responsive e-commerce website with optimized product catalogs and structured database management.

ACHIEVEMENTS & HACKATHONS

Paper Presentation: Won Second Prize in a technical competition for research and presentation of emerging technologies.

Smart India Hackathon (SIH): Developed a conceptual prototype for a Public Transport Tracking System to improve urban mobility.

Intellithon: Engineered a Smart Parking System focusing on real-time slot management logic and urban congestion solutions.

Odoo x SNS Hackathon: Cracked the first round with "Globe Trotter," built under high-pressure time constraints.

Oracle & Cisco Academy: Earned certifications in Java (Object-Oriented Programming) and Python (software fundamentals).

Problem Solving: Actively building logical reasoning and debugging skills through consistent practice on LeetCode.

PERSONAL SKILLS & INTERESTS

Soft Skills: Problem-solving, Teamwork & Collaboration, Time Management, Adaptability, Self-motivation.
Technical Interests: Coding, solving logical problems, exploring modern application development.
Continuous Learning: Researching emerging technologies, AI integration, sustainable green-tech solutions.
Skill Development: Learning new programming languages and frameworks beyond curriculum.
Languages: Tamil (Native), English (Professional Working Proficiency).
